Scanning Tips and Techniques

C-Pen Reader 2™

·The pen will not work with handwritten text, only printed text.
·Hold the reader pen, like a regular pen, almost straight up.
·No need to press any buttons.

·Scan the pen across the text.
·Make sure the text to be read is on a flat surface.
·Move the pen at a steady pace, not too fast or too slow.
·Don't push the pen too hard.

·The pen will light up when it touches paper.
·Start moving the pen along the text line as soon as the scan light starts up.
·The reader pen will start scanning the words, one at a time.

·The reader pen can be set to read text automatically when scanned or press the centre square button to start the read aloud.
·To learn the meaning of a word, select the word and press the MENU button and select Definition.
